Key Responsibilities:

- Measure, cut, shape, fasten, and install wooden floor, wall, and roof structures for custom homes and remodeling projects
- Build, align, and secure forms, frameworks, and other structures
- Ensure quality and safety standards are met on all projects
- Interpret and analyze blueprints, drawings, and specifications

Qualifications:

- Willingness to learn and be part of team
- Good physical condition and stamina
- Strong problem-solving skills and attention to detail
- Excellent teamwork and communication skills
- Valid driver's license

Benefits:

- Competitive salary & performance bonus
- Health insurance
- 401k
- Opportunities for growth and development (We are looking for our future leaders!)
- A chance to do something new and different every day
